Welcome To CLARITY RESEARCH

CLARITY represents the formal alliance of a group of researchers who have enjoyed a long-standing and fruitful collaboration.

The seven CLARITY faculty members -- Gordon Guyatt, Brian Haynes, Deborah Cook, Maureen Meade, PJ Devereaux, Holger Schunemann and Mohit Bhandari -- participated in an inaugural group meeting in 2003.

Through formal collaboration, Clarity's clinical advances through research and information translation has been pivotal in creating a renewed sense of spirit, vision and commitment.

You can navigate through the website using the menu bar above. Enjoy your time here, and thank-you visiting the Clarity website.
